

ZYGO UPGRADE PROGRAM

Why risk your business with aging equipment, limited performance or capabilities? ZYGO's certified upgrade packages provide cost-effective options to extend the life and performance of your ZYGO product. Our direct factory upgrade services provide you with new, fully compatible and qualified components, ensuring optimum metrology performance and confidence, while lowering your maintenance costs and risks considerably.

The following table summarizes common upgrade packages that are available for ZYGO Laser Interferometers. Please note that all upgrades are performed by ZYGO trained personnel and include only new and certified parts.
