

ZMI Retroreflector, Small

P/N	DESCRIPTION
6191-0550-01	Small retroreflector
PHYSICAL CHARACTERISTICS	
Dimensions	See Figure
Weight	11 grams (0.4 oz)
Materials	Housing- magnetic stainless steel End Cap- Metal Optics- BK7 Adhesives- vacuum grade, low volatility

OPTICAL	
Out-of-parallelism between output beam and input beam	≤ 1.5 arc sec
Signal Efficiency (minimum)	86%

Note: the small retroreflector is used as a target mirror with the single beam interferometer.
