

# ZMI Beam Reducing Telescope

P/N	DESCRIPTION	OPTICAL
6191-0372-01	Reduces 6 mm laser beam to 3 mm output beam	Out-of-parallelism between output beam and input beam <5 arc min
<b>PHYSICAL CHARACTERISTICS</b>		Signal Efficiency (typical) 98%
Dimensions	See Figure	
Weight	137 grams (4.8 oz)	
Materials	Housing- magnetic stainless steel with electroless nickel plating Optics- BK7 Adhesives- vacuum grade, low volatility	
Function	Reduce 6 mm beam diameter to 3 mm
